

# Subprocessor list

Effective 29 August 2026. A later edit replaces this page in place.

This page lists third parties **mvdm.io** uses to process personal data across every Product. It is the living subprocessor list referenced by the Data Processing Agreement.

- **Legal name:** mvdm.io
- **Legal form:** sole proprietorship (eenmanszaak)
- **Chamber of Commerce (KvK):** 86594737
- **VAT identification number:** NL000000000B00 (placeholder — VAT number not yet issued)
- **Registered address:** De Vierakkers 15, 7766 BL Nieuw-Schoonebeek, the Netherlands
- **Email:** [michiel@mvdm.io](mailto:michiel@mvdm.io)

## Every Product

- **Hetzner** — hosting on a dedicated server in Nuremberg, Germany.
- **Cloudflare** — DNS, the TLS proxy in front of every application, and transactional email (United States). All traffic to every Product passes through Cloudflare, not only mail.
- **Stripe** — payments (United States).

## mvdm.io Compliance

- **xAI** — the assistant, speech to text and text to speech (United States).
- **Anthropic** — Confluence import extraction (United States).

## mvdm.io Translation Tools

- **xAI** — the assistant and automatic translation (United States).

## **mvdn.io Health Check**

- **Qualys SSL Labs** — TLS grading of the customer's own hostnames (United States).

## **mvdn.io Statistics**

Nothing beyond the shared three above.

## **mvdn.io Commonplace**

- **Google Books** — book search and metadata (United States).

## **Notes**

Error tracking is self-hosted on mvdn.io's own machine. It is not a third party and is not listed.

Edits replace this page in place. When this list changes, mvdn.io emails account owners; a customer who objects to a new subprocessor may end the contract, with no refund for time already paid, as the [Data Processing Agreement](#) and the [Terms of Service](#) describe.
